

[Customers](#) | [Acquisitions](#) | [Culture](#) | [Leadership](#) | [Community](#) | [Highlights](#)

---

As we celebrate 40 years of growth and progress for Trimble this year, this edition of TeamOne celebrates the growth and progress of Trimble careers. Our more than 47 businesses create endless opportunities for our employees, especially those who are open to trying to something new - a new industry, new role, new location.

Here we highlight just a few of our colleagues who made a leap to try something new.

## ► CUSTOMERS: The Extended Trimble Family

---

At Trimble, we love to hear how our technology helps progress our customers' careers, as well.

[Read how one grandfather in the United Kingdom passed down farming operations to his grandson](#) with the use of Trimble Ag's guidance technology.

Also highlighting, Kevin Vonesh, Sales Manager, Trimble Navigation, who "spent 18 years at LafargeHolcim using Trimble products in their aggregate, asphalt and concrete business. I chose to come to Trimble because I saw an opportunity to better connect the solutions and innovations that Trimble has to offer with the transportation, production and performance management issue that impact the construction process."

## ► ACQUISITIONS: Viewpoint

---

[Hear from the CEO](#) of the latest company to join the Trimble family, Manolis Kotzabasakis of Viewpoint. Manolis discusses why Trimble was a great fit, what he looks forward to as part of the family, and how they enable career advancement at Viewpoint.

A more than 40-year-old construction software company, Viewpoint is headquartered in Portland, Oregon. Its nearly 800 employees are also located in major offices in Seattle, Sydney and the UK. This summer, the company launched [ViewpointOne](#), an all-in-one construction software suite of solutions.

## ► CULTURE: Celebrating 40

---

We're looking forward to seeing each offices' **#historywall**! You're encouraged to write messages, draw pictures, post photos - anything from the past 40 years that has inspired you, engaged you, or any achievements of which you're most proud!

Here's a sneak peek at the Westminster wall (left). And bravo to the team in Brazil who have some [great content](#) coming together on their wall! (right).

Also, don't forget to save the date on November 12 when each site will celebrate our 40th with cake and anniversary t-shirts!

## ▶ LEADERSHIP: Leadership around the globe

---

[Sach Sankpal](#), Senior Vice President, discusses his international career path, what brought him back to Trimble, and advice for a fulfilling career.

A spotlight on a diverse career: learn about the Director of Field Technology Group, [Martin Holmgren](#)'s 23 years with Trimble.

Career advancement without borders: read about lead software engineer, [Venky Pasupuleti](#)'s transition from India to Canada.

## ▶ COMMUNITY: Great activity around the world

---

Our Trimble communities around the globe are buzzing with exciting summer activity to be proud of. Here are just a handful of the great things going on around the world:

[Trimble employees in Georgia supported their local chapter of Treat the Troops](#)

[Trimble Brazil banded together to donate blood](#)

[Trimble UK sponsors cycling team raising money for Bloodwise](#)

[And check out this video in support of the Finnish Paralympic Team!](#)
